

# The Information Channel as a Vulnerability

*The same channel that enables coordination is exploitable by the regime*

## Instrument Interactions

**Surv + Propaganda:**

Sub-additive (both attack same channel)

**Surv + Censorship:**

Super-additive (attack different channels)

**All three:**

30.9% → 3.7% (coordination collapse)

*"The regime does not need to change what citizens believe; it needs only to make them uncertain about each other."*
